NVIDIA Training Course Catalog

May 2026

Introduction

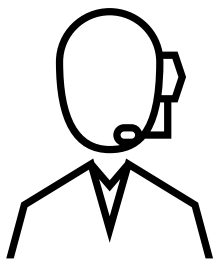

NVIDIA offers training for diverse needs, giving individuals and teams across organizations what they need to advance their knowledge in AI, accelerated computing, data science, data center administration, graphics and simulation, networking, and more.

With access to high-performance computing, you'll learn how to train, optimize, and deploy neural networks using the latest deep learning tools, frameworks, and SDKs. You'll also learn how to assess, parallelize, optimize, and deploy NVIDIA-accelerated computing applications.

Our training program offers both self-paced online courses and instructor-led, prescheduled workshops. The self-paced courses range from ten minutes to eight hours and guide you through applying a specific technology, setting up a project, or administering solutions in a data center. Instructor-led workshops and boot camps go deeper into topic areas, teaching you how to implement a project or solution from end to end. Both types of courses give you valuable hands-on experience using the latest technologies.

Why Choose NVIDIA for Training?

- > Learn how to build deep learning and accelerated computing applications for industries such as healthcare, robotics, autonomous driving, manufacturing, and more.
- > Gain hands-on experience with the most widely used, industry-standard platforms including software, hardware, tools, and frameworks. Each student will have access to a fully configured, GPU-accelerated server in the cloud or access to NVIDIA solutions in our training lab.
- > Become proficient in administering NVIDIA hardware and software solutions such as NVIDIA DGX, InfiniBand, Cumulus, NVIDIA AI Enterprise, and more.
- > Access instructor-led workshops and online courses from anywhere using just a laptop and internet connection.
- > Acquire real-world expertise through content designed in collaboration with industry leaders such as Children's Hospital of Los Angeles, Mayo Clinic, and PwC.
- > Earn NVIDIA certifications and course completion certificates to indicate subject matter competency and support your career growth.

For team training, contact an [NVIDIA training advisor](#), who will work with you to create a customized plan that addresses your team's specific training needs and is aligned to your business objectives and priorities.

Table of Contents

Instructor-Led Workshops for Developers

Accelerated Computing

Fundamentals of Accelerated Computing With CUDA Python	9
Fundamentals of Accelerated Computing With Modern CUDA C++	9
Fundamentals of Accelerated Networking With NVIDIA DOCA	9

Data Science

Enhancing Data Science Outcomes With Efficient Workflow	9
Fundamentals of Accelerated Data Science	9
Applications of AI for Anomaly Detection	9
Applications of AI for Predictive Maintenance	10
Building AI Agents With Multimodal Models	10
Building Conversational AI Applications	10
Building Transformer-Based Natural Language Processing Applications	10
Computer Vision for Industrial Inspection	10
Data Parallelism: How to Train Deep Learning Models on Multiple GPUs	10
Fundamentals of Deep Learning	10
Model Parallelism: Building and Deploying Large Neural Networks	11

Generative AI and Large Language Models (LLMs)

Adding New Knowledge to LLMs	11
Building Agentic AI Applications With LLMs	11
Building LLM Applications With Prompt Engineering	11
Building RAG Agents With LLMs	11
Deploying RAG Pipelines for Production at Scale	11
Generative AI With Diffusion Models	11
Rapid Application Development With Large Language Models (LLMs)	12

Physical AI and Simulation

Getting Started With AI on NVIDIA Jetson Nano	12
NVIDIA Isaac for Accelerated Robotics	12

Online, Self-Paced Courses for Developers

Accelerated Computing

An Even Easier Introduction to CUDA	13
Find the Bottleneck: Optimize AI Pipelines With Nsight Systems	13
Fundamentals of Accelerated Computing With CUDA Python	13
Getting Started With Accelerated Computing in Modern CUDA C++	13
GPU Acceleration With the C++ Standard Library	13
Nsight Analysis System: Build Custom Python Analysis Scripts	13
Optimizing CUDA Machine Learning Codes With Nsight Profiling Tools	14
Scaling GPU-Accelerated Applications With the C++ Standard Library	14

Data Science

Accelerate Data Science and Leverage Foundation Models in Digital Biology	14
Accelerating Clustering Algorithms to Achieve the Highest Performance	14
Accelerating End-to-End Data Science Workflows	14
Accelerating Portfolio Optimization	14
Analyzing and Visualizing Large Data Interactively Using Accelerated Computing	14
Best Practices in Feature Engineering for Tabular Data With GPU Acceleration	15
Exploring Adversarial Machine Learning	15
Structure From Chaos: Accelerate GraphRAG With cuGraph and NVIDIA NIM	15
Use GPUs to Accelerate RAG Pipelines With Vector Databases	15

Deep Learning

Advanced Federated Learning With NVIDIA FLARE	15
Applying AI Weather Models With NVIDIA Earth-2	15
Build High-Performance and AI-Enabled Sensor Processing Applications	15
Building a Brain in 10 Minutes	16
Building AI Agents With Multimodal Models	16
Building Real-Time Video AI Applications	16
Decentralized AI at Scale With NVIDIA FLARE	16
Disaster Risk Monitoring Using Satellite Imagery	16
Get Started With Highly Accurate Custom ASR for Speech AI	16
Getting Started With AI on Jetson Nano	16
Getting Started With Deep Learning	16
Integrating Sensors With NVIDIA DRIVE	17
Introduction to Federated Learning With NVIDIA FLARE	17
Introduction to Graph Neural Networks	17
Medical AI Development With MONAI: Interactive Annotation Using NVIDIA NIM Microservices	17

Generative AI and Large Language Models (LLMs)

Agentic AI Explained	17
An Introduction to NVIDIA Cosmos for Physical AI	17
Augment Your LLM Using Retrieval-Augmented Generation	17
Build a Deep Research Agent	18
Building Agentic AI Applications With LLMs	18
Building LLM Applications With Prompt Engineering	18
Building RAG Agents With LLMs	18
Domain-Adaptive Pretraining: Tailoring LLMs for Specialized Applications	18
Evaluation and Light Customization of Large Language Models	18
Evaluating RAG and Semantic Search Systems	19
Generative AI Explained	19
Generative AI With Diffusion Models	19
Getting Started With NVIDIA Tools for Generative AI in Digital Health	19
Introduction to Deploying RAG Pipelines for Production at Scale	19
Introduction to Multimodal Data Curation	19
Introduction to NVIDIA NIM Microservices	19
Introduction to Transformer-Based Natural Language Processing	20
Rapid Application Development With Large Language Models (LLMs)	20
Sizing LLM Inference Systems	20
Streamlining Drug Discovery With NVIDIA BioNeMo NIM and Blueprints	20
Synthetic Tabular Data Generation Using Transformers	20
Techniques for Improving the Effectiveness of RAG Systems	20
The Art of Compressing LLMs: Pruning, Distillation, and Quantization Demystified	20

Simulation and Physical AI

A Beginner's Guide to Autonomous Robots	21
Accelerating Computer-Aided Engineering (CAE) With NVIDIA AI Physics Technology	21
Accelerating ROS 2 With NVIDIA GPU-Powered Libraries and AI Models	21
An Introduction to AI-Based Robot Development With Isaac ROS	21
An Introduction to Developing With NVIDIA Omniverse	21
An Introduction to Robot Learning and Isaac Lab	21
Building AI-Powered Material Generation for Omniverse With DGX Cloud	21
Building and Deploying Digital Twin Applications With Omniverse Kit App Streaming	22
Creating an Omniverse Extension With Python	22
Develop, Simulate, and Deploy Robot Intelligence With General Robotics	22
Developing Robots With Software-in-the-Loop (SIL) in Isaac Sim	22
Extend Omniverse Kit Applications for Building Digital Twins	22
Fundamentals of Working With OpenUSD	22
Generating High-Quality Motion Data for Robotics With MobilityGen	22
Getting Started: Simulating Your First Robot in Isaac Sim	22
Ingesting Robot Assets and Simulating Your Robot in Isaac Sim	23

Leveraging ROS 2 and Hardware-in-the-Loop (HIL) in Isaac Sim	23
Software-in-the-Loop Testing for Robots With OpenUSD, Isaac Sim, and ROS	23
Synthetic Data Generation for Perception Model Training in Isaac Sim	23
Train Your First Robot in Isaac Lab	23
Train Your Second Robot in Isaac Lab	23
Training Healthcare Robotics From Scratch Using Isaac for Healthcare	23
Transferring Robot Learning Policies From Simulation to Reality	23

Hybrid Training for Infrastructure Professionals

Partner Technical Training

AI Factory Deployment	24
NCP GB200/GB300 Administration	24
NCP HGX 8-Way Administration	24

Workshops for Infrastructure Professionals

AI and Data Science

AI Infrastructure	25
AI Infrastructure and Operations Professional	25
AI Operations Professional	25
NVIDIA AI Enterprise Deployment on BareMetal Kubernetes Public Workshop	25
NVIDIA Run:ai for AI Practitioners	26

Networking

NVIDIA Cumulus Linux Administration	26
InfiniBand Network Administration Private Workshop	26
NCP GB200/GB300 Administration Training Private Workshop	26
Spectrum-X Networking Platform Administration Private Workshop	26

NVIDIA DGX

NVIDIA DGX BasePOD Administration Private Workshop	27
NVIDIA DGX SuperPOD Administration (GB200) Private Workshop	27
NVIDIA DGX System Administration	27

Software and Tools

Base Command Manager Private Workshop	27
---------------------------------------	----

Self-Paced Courses for Infrastructure Professionals

AI and Data Science

AI for All—From Basics to Gen AI Practice	28
AI Infrastructure and Operations Fundamentals	28
NVIDIA Run:ai Platform Deployment	28

Networking

Ansible Essentials for Network Engineers	28
Cable Validation Tool (CVT) Fundamentals	28
Data Center Management Made Easy With NVIDIA Unified Fabric Manager (UFM)	28
Fundamentals of RDMA Programming	29
InfiniBand Essentials	29
InfiniBand Network Administration	29
Introduction to Networking	29
MLXlink and MLXcables	29
Network Administration With the NVIDIA Onyx Switch System	29
NVIDIA BlueField DPU Administration	29
NVIDIA Cumulus Linux Administration	30
NVIDIA Cumulus Linux Essentials	30
NVIDIA NetQ Deployment and Installation	30
RDMA Over Converged Ethernet (RoCE) From A to Z	30
SONiC Essentials by NVIDIA	30

NVIDIA DGX

NVIDIA DGX Cloud Create Onboarding	30
------------------------------------	----

Software and Tools

Base Command Manager Administration	30
Data Center Management Made Easy With NVIDIA UFM	31
NVIDIA AI Enterprise Deployment on BareMetal Kubernetes	31
NVIDIA AI Enterprise for Azure Professionals	31
NVIDIA License System	31

Certifications

AI Infrastructure

NVIDIA-Certified Associate: AI Infrastructure and Operations	32
NVIDIA-Certified Professional: AI Infrastructure	32
NVIDIA-Certified Professional: AI Operations	32
NVIDIA-Certified Professional: AI Networking	32

Data Science

NVIDIA-Certified Associate: Accelerated Data Science	32
NVIDIA-Certified Professional: Accelerated Data Science	32

Generative AI

NVIDIA-Certified Associate: Generative AI Large Language Models	33
NVIDIA-Certified Associate: Generative AI Multimodal	33
NVIDIA-Certified Professional: Generative AI LLMs	33
NVIDIA-Certified Associate: Generative AI Multimodal	33

Simulation and Physical AI

NVIDIA-Certified Professional: OpenUSD Development	33

Instructor-Led Workshops for Developers

Workshop Name	Description										
Accelerated Computing											
Fundamentals of Accelerated Computing With CUDA Python	Explore how to use Numba—the just-in-time, type-specializing Python function compiler—to create and launch CUDA kernels to accelerate Python programs on massively parallel NVIDIA GPUs. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Numba, NumPy</td><td>English, Simplified Chinese, Traditional Chinese</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Numba, NumPy	English, Simplified Chinese, Traditional Chinese	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
Numba, NumPy	English, Simplified Chinese, Traditional Chinese	8 Hours	\$500	Yes							
Fundamentals of Accelerated Computing With Modern CUDA C++	Learn how to write, compile, and run GPU-accelerated code, leverage CUDA core libraries to harness the power of massive parallelism provided by modern GPU accelerators, optimize memory migration between CPU and GPU, and implement your own algorithms. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>CUDA</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	CUDA	English	8 Hours	\$500	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
CUDA	English	8 Hours	\$500	Yes							
Fundamentals of Accelerated Networking With NVIDIA DOCA	Learn how to use the NVIDIA DOCA framework to develop and deploy data center infrastructure and applications. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>C, DOCA</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	C, DOCA	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
C, DOCA	English	8 Hours	\$500	Yes							
Data Science											
Enhancing Data Science Outcomes With Efficient Workflow	Learn how to process and analyze large-scale tabular data to uncover meaningful insights. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Python, cuDF, Dask, Plotly, NVTabular, cuML, Forest Inference Library, PyTorch, and NVIDIA Triton Inference Server</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Python, cuDF, Dask, Plotly, NVTabular, cuML, Forest Inference Library, PyTorch, and NVIDIA Triton Inference Server	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
Python, cuDF, Dask, Plotly, NVTabular, cuML, Forest Inference Library, PyTorch, and NVIDIA Triton Inference Server	English	8 Hours	\$500	Yes							
Fundamentals of Accelerated Data Science	Learn how to use GPU-accelerated tools to conduct data science faster, leading to more scalable, reliable, and cost-effective results.. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>RAPIDS, cuDF, XGBoost, cuML, cuGraph, Dask, cuPy, pandas, Polars, NumPy, and Bokeh</td><td>English, Traditional Chinese</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	RAPIDS, cuDF, XGBoost, cuML, cuGraph, Dask, cuPy, pandas, Polars, NumPy, and Bokeh	English, Traditional Chinese	8 Hours	\$500	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
RAPIDS, cuDF, XGBoost, cuML, cuGraph, Dask, cuPy, pandas, Polars, NumPy, and Bokeh	English, Traditional Chinese	8 Hours	\$500	Yes							
Applications of AI for Anomaly Detection	Learn how to prepare data and build, train, and evaluate models using XGBoost, autoencoders, and GANs; detect anomalies in datasets with both labeled and unlabeled data; and classify anomalies into multiple categories, regardless of whether the original data was labeled. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>NVIDIA RAPIDS, XGBoost, TensorFlow, Keras, pandas, autoencoders, GANs</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	NVIDIA RAPIDS, XGBoost, TensorFlow, Keras, pandas, autoencoders, GANs	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
NVIDIA RAPIDS, XGBoost, TensorFlow, Keras, pandas, autoencoders, GANs	English	8 Hours	\$500	Yes							

[Back](#)

Workshop Name	Description				
Applications of AI for Predictive Maintenance	Learn how to identify anomalies and failures in time series data, estimate the remaining useful life of the corresponding parts, and use this information to map anomalies to failure conditions.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	Python, TensorFlow, Keras, XGBoost, NVIDIA RAPIDS, cuDF, LSTM, autoencoders	English	8 Hours	\$500	Yes
Building AI Agents With Multimodal Models	Learn how to develop neural network-based multimodal models that can understand many data types by exploring a variety of fusion techniques.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	PyTorch, CLIP	English	8 Hours	\$500	Yes
Building Conversational AI Applications	Learn how to quickly build and deploy a conversational AI pipeline including transcription, natural language processing (NLP), and speech.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	NVIDIA Riva, NVIDIA NeMo, Kubernetes	English	8 Hours	\$500	Yes
Building Transformer-Based Natural Language Processing Applications	Learn how to apply and fine-tune a transformer-based deep learning model to natural language processing (NLP) tasks.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	PyTorch, pandas, NVIDIA NeMo, NVIDIA Triton Inference Server	English	8 Hours	\$500	Yes
Computer Vision for Industrial Inspection	Learn how to extract meaningful insights from a provided dataset using Pandas DataFrame.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	Python, Pandas, DALI, NVIDIA TAO Toolkit, NVIDIA TensorRT, and NVIDIA Triton Inference Server	English	8 Hours	\$500	Yes
Data Parallelism: How to Train Deep Learning Models on Multiple GPUs	Learn how to perform data parallel deep learning training using multiple GPUs.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	PyTorch, PyTorch Distributed Data Parallel, NCCL	English	8 Hours	\$500	Yes
Fundamentals of Deep Learning	Learn the fundamental techniques and tools required to train a deep learning model.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	PyTorch, Pandas	English, Simplified Chinese, Japanese	8 Hours	\$500	Yes

[Back](#)

Workshop Name	Description										
Model Parallelism: Building and Deploying Large Neural Networks	Learn how to train neural networks across multiple servers. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>PyTorch, Megatron-LM, DeepSpeed, Slurm, Triton Inference Server</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	PyTorch, Megatron-LM, DeepSpeed, Slurm, Triton Inference Server	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
PyTorch, Megatron-LM, DeepSpeed, Slurm, Triton Inference Server	English	8 Hours	\$500	Yes							
Generative AI and Large Language Models (LLMs)											
Adding New Knowledge to LLMs	Transform open source LLMs into domain-specialized AI assets. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Python, NVIDIA NeMo, NVIDIA TensorRT-LLM, Docker, MLflow</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Python, NVIDIA NeMo, NVIDIA TensorRT-LLM, Docker, MLflow	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
Python, NVIDIA NeMo, NVIDIA TensorRT-LLM, Docker, MLflow	English	8 Hours	\$500	Yes							
Building Agentic AI Applications With LLMs	Learn how to design intelligent agents that can be adapted for arbitrary environments at scale. Utilizing frameworks like LangGraph and NVIDIA NIM, you'll build agents capable of deep thought, long-horizon reasoning, content management, and real-time operations. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Python, PyTorch, NVIDIA NIM, build.nvidia.com, LangChain, and LangGraph</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Python, PyTorch, NVIDIA NIM, build.nvidia.com, LangChain, and LangGraph	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
Python, PyTorch, NVIDIA NIM, build.nvidia.com, LangChain, and LangGraph	English	8 Hours	\$500	Yes							
Building LLM Applications With Prompt Engineering	Learn how to build a variety of LLM-based applications with modern prompt engineering techniques. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>NVIDIA NIM, LangChain, Llama</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	NVIDIA NIM, LangChain, Llama	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
NVIDIA NIM, LangChain, Llama	English	8 Hours	\$500	Yes							
Building RAG Agents With LLMs	Agents powered by LLMs have shown great retrieval capability for using tools, looking at documents, and planning their approaches. This course will show you how to deploy an agent system in practice with the flexibility to scale up your system to meet the demands of users and customers. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>NIM, LangChain, Llama 3.1</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	NIM, LangChain, Llama 3.1	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
NIM, LangChain, Llama 3.1	English	8 Hours	\$500	Yes							
Deploying RAG Pipelines for Production at Scale	Learn how to build a simple RAG pipeline using API endpoints, deployed locally with Docker Compose. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Python, NVIDIA NIM, Kubernetes, Helm, Grafana, Prometheus</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Python, NVIDIA NIM, Kubernetes, Helm, Grafana, Prometheus	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
Python, NVIDIA NIM, Kubernetes, Helm, Grafana, Prometheus	English	8 Hours	\$500	Yes							
Generative AI With Diffusion Models	In this course, learners will take a deeper dive into denoising diffusion models, which are a popular choice for text-to-image pipelines. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>PyTorch, CLIP</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	PyTorch, CLIP	English	8 Hours	\$500	Yes
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
PyTorch, CLIP	English	8 Hours	\$500	Yes							

Workshop Name	Description				
Rapid Application Development With Large Language Models (LLMs)	Get started quickly with developing LLM-based applications by exploring the open source ecosystem, including pretrained LLMs.				
	> Learn More				
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate
	PyTorch, CLIP	English	9 Hours	\$500	Yes

Physical AI and Simulation

Getting Started With AI on NVIDIA Jetson Nano	Build and train a classification dataset and model with NVIDIA Jetson Nano.									
	> Learn More									
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>PyTorch, NVIDIA Jetson Nano</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	PyTorch, NVIDIA Jetson Nano	English	8 Hours	\$500
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
PyTorch, NVIDIA Jetson Nano	English	8 Hours	\$500	Yes						
NVIDIA Isaac for Accelerated Robotics	Accelerate your robotics innovation with this hands-on workshop focused on simulation-first development, AI-powered perception, and synthetic data generation using NVIDIA Isaac.									
	> Learn More									
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>OpenUSD, Issac Sim</td><td>English</td><td>8 Hours</td><td>\$500</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	OpenUSD, Issac Sim	English	8 Hours	\$500
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
OpenUSD, Issac Sim	English	8 Hours	\$500	Yes						

Online, Self-Paced Courses for Developers

Course Name	Description										
Accelerated Computing											
An Even Easier Introduction to CUDA	This course accompanies Mark Harris' popular blog post "An Even Easier Introduction to CUDA." In this notebook, you'll learn the basics of writing massively parallel CUDA kernels to run on NVIDIA GPUs. Upon completion, you'll be able to launch massively parallel CUDA Kernels on an NVIDIA GPU, organize parallel thread execution for massive dataset sizes, manage memory between the CPU and GPU, and profile your CUDA code to observe performance gains. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>CUDA C++</td><td>English</td><td>1 Hour</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	CUDA C++	English	1 Hour	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
CUDA C++	English	1 Hour	Free	N/A							
Find the Bottleneck: Optimize AI Pipelines With Nsight Systems	Discover how to identify and eliminate performance bottlenecks in AI applications using NVIDIA Nsight Systems. > Learn More <table><tr><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Python, NVIDIA Nsight Systems, NVTX, PyTorch, PyNvVideoCodec, CV-CUDA, OpenCV, FFmpeg</td><td>English</td><td>3 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Languages	Duration	Price	Certificate	Python, NVIDIA Nsight Systems, NVTX, PyTorch, PyNvVideoCodec, CV-CUDA, OpenCV, FFmpeg	English	3 Hours	\$30	N/A	
Languages	Duration	Price	Certificate								
Python, NVIDIA Nsight Systems, NVTX, PyTorch, PyNvVideoCodec, CV-CUDA, OpenCV, FFmpeg	English	3 Hours	\$30	N/A							
Fundamentals of Accelerated Computing With CUDA Python	Explore how to use Numba—the just-in-time, type-specializing Python function compiler—to create and launch CUDA kernels to accelerate Python programs on massively parallel NVIDIA GPUs. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Numba, CUDA, Python</td><td>English</td><td>8 Hours</td><td>\$90</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Numba, CUDA, Python	English	8 Hours	\$90	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Numba, CUDA, Python	English	8 Hours	\$90	Yes							
Getting Started With Accelerated Computing in Modern CUDA C++	Learn how to write, compile, and run GPU-accelerated code, leverage CUDA core libraries to harness the power of massive parallelism provided by modern GPU accelerators, optimize memory migration between CPU and GPU, and implement your own algorithms. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>CUDA, Nsight</td><td>English</td><td>8 Hours</td><td>\$90</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	CUDA, Nsight	English	8 Hours	\$90	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
CUDA, Nsight	English	8 Hours	\$90	Yes							
GPU Acceleration With the C++ Standard Library	Learn to write simple, portable, parallel-first applications using only standard C++ language features that can be compiled without modification to take advantage of NVIDIA GPU-accelerated environments. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>HPC SDK</td><td>English</td><td>2 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	HPC SDK	English	2 Hours	\$30	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
HPC SDK	English	2 Hours	\$30	N/A							
Nsight Analysis System: Build Custom Python Analysis Scripts	Learn to build custom Python analysis scripts using the NVIDIA Nsight Analysis System to programmatically identify and summarize application performance bottlenecks. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Python, NVIDIA Nsight Systems</td><td>English</td><td>2 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Python, NVIDIA Nsight Systems	English	2 Hours	\$30	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Python, NVIDIA Nsight Systems	English	2 Hours	\$30	N/A							

[Back](#)

Course Name	Description										
Optimizing CUDA Machine Learning Codes With Nsight Profiling Tools	Learn how to use two powerful NVIDIA developer tools: Nsight Systems and Nsight Compute. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Nsight</td><td>English</td><td>2 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Nsight	English	2 Hours	\$30	N/A
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
Nsight	English	2 Hours	\$30	N/A							
Scaling GPU-Accelerated Applications With the C++ Standard Library	Learn to write simple, portable, parallel-first applications using only standard C++ language features that can be compiled without modification to take advantage of NVIDIA GPU-accelerated environments. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>2 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	2 Hours	\$30	N/A
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
N/A	English	2 Hours	\$30	N/A							
Data Science											
Accelerate Data Science and Leverage Foundation Models in Digital Biology	Learn how foundation models can reveal novel biological insights, while leveraging NVIDIA's platform to accelerate the entire workflow for fast, scalable results. This course is free for a limited time. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>HPC SDK, MPI</td><td>English</td><td>2 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	HPC SDK, MPI	English	2 Hours	\$30	N/A
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate						
HPC SDK, MPI	English	2 Hours	\$30	N/A							
Accelerating Clustering Algorithms to Achieve the Highest Performance	Learn how clustering algorithms like k-means, DBSCAN, and HDBSCAN are used to uncover patterns in data and power real-world applications, while leveraging NVIDIA GPUs to accelerate the entire workflow for fast, scalable results. This course is free for a limited time. > Learn More										
	<table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>RAPIDS, cuDF, and cuML</td><td>English</td><td>2 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	RAPIDS, cuDF, and cuML	English	2 Hours	\$30	N/A
	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate

Accelerating Computer-Aided Engineering (CAE) With NVIDIA AI Physics Technology	This course provides a comprehensive, hands-on introduction to building and deploying AI surrogate models for external aerodynamics, bridging the gap between time-intensive computational fluid dynamics (CFD) simulations and the rapid predictive power of deep learning. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Python, PyTorch, PyVista, Deep Graph Library (DGL), NVIDIA PhysicsNeMo, NVIDIA Omniverse</td><td>English</td><td>8 Hours</td><td>\$90</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Python, PyTorch, PyVista, Deep Graph Library (DGL), NVIDIA PhysicsNeMo, NVIDIA Omniverse	English	8 Hours	\$90	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Python, PyTorch, PyVista, Deep Graph Library (DGL), NVIDIA PhysicsNeMo, NVIDIA Omniverse	English	8 Hours	\$90	Yes							
Accelerating ROS 2 With NVIDIA GPU-Powered Libraries and AI Models	Learn how to accelerate ROS 2 workloads using NVIDIA's latest GPU-powered libraries for AI and robotics. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>3 Hours</td><td>\$30</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	3 Hours	\$30	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
N/A	English	3 Hours	\$30	N/A							
An Introduction to AI-Based Robot Development With Isaac ROS	Get an overview of NVIDIA Isaac, Isaac ROS, and NITROS. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Isaac ROS, NITROS</td><td></td><td>30 Minutes</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Isaac ROS, NITROS		30 Minutes	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Isaac ROS, NITROS		30 Minutes	Free	N/A							
An Introduction to Developing With NVIDIA Omniverse	If you want to build applications from scratch, NVIDIA offers Omniverse Kit SDK and free templates to build starter applications that can be easily customized and extended. This course provides the fundamentals of using Omniverse Kit SDK to develop such applications. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Omniverse</td><td>English</td><td>2 Hours</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Omniverse	English	2 Hours	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Omniverse	English	2 Hours	Free	N/A							
An Introduction to Robot Learning and Isaac Lab	This overview will explore the fundamentals of robot learning and introduce NVIDIA's Isaac Lab, a powerful tool for developing robotic applications. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Isaac Lab</td><td>English</td><td>3 Hours</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Isaac Lab	English	3 Hours	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Isaac Lab	English	3 Hours	Free	N/A							
Building AI-Powered Material Generation for Omniverse With DGX Cloud	Learn how to create an NVIDIA Omniverse extension that uses AI to generate realistic 3D materials from natural language descriptions. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Omniverse, OpenUSD, NVIDIA NIM, PyTorch</td><td>English</td><td>2 Hours</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Omniverse, OpenUSD, NVIDIA NIM, PyTorch	English	2 Hours	Free	N/A

DGX System	English	12 Hours	\$1,500 (excludes tax, if applicable)	N/A							
Software and Tools											
Base Command Manager Private Workshop	This course provides an overview of NVIDIA Base Command Manager. For those who are going to be managing and working with HPC or AI clusters, this course will give you a head start on understanding a powerful tool for cluster and workload management. > Learn More About the Private Workshop <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certification Exam</th></tr><tr><td>Base Command Manager</td><td>English</td><td>12 Hours</td><td>Contact Us</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certification Exam	Base Command Manager	English	12 Hours	Contact Us	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certification Exam							
Base Command Manager	English	12 Hours	Contact Us	N/A							

Self-Paced Courses for Infrastructure Professionals

Workshop Name	Description										
AI and Data Science											
AI for All—From Basics to Gen AI Practice	This introductory course provides invaluable insights into the evolving landscape of AI. Whether you're a seasoned professional or just beginning your journey into AI, this course is essential for staying ahead in today's rapidly evolving technological landscape. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>4 Hours</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	4 Hours	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
N/A	English	4 Hours	Free	N/A							
AI Infrastructure and Operations Fundamentals	Learn the essentials of AI infrastructure and operations, including compute platforms, GPU systems, and best practices for managing and scaling AI environments. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>7 Hours</td><td>\$50</td><td>Available</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	7 Hours	\$50	Available
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
N/A	English	7 Hours	\$50	Available							
NVIDIA Run:ai Platform Deployment	This course provides a practical, end-to-end introduction to deploying and configuring the Run:ai platform. It covers both conceptual understanding and hands-on guidance for installing, configuring, and verifying Run:ai deployments. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Run:ai</td><td>English</td><td>3 Hours</td><td>\$50</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Run:ai	English	3 Hours	\$50	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Run:ai	English	3 Hours	\$50	Yes							
Networking											
Ansible Essentials for Network Engineers	In this course, you'll explore a variety of Ansible modules and write playbooks specifically adapted to modern data centers. This course includes an exclusive hands-on lab environment and exercises to practice real-world scenarios in real cloud environments. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>1.5 Hours</td><td>\$50</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	1.5 Hours	\$50	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	1.5 Hours	\$50	Yes							
Cable Validation Tool (CVT) Fundamentals	Learn how to use the CVT for validating data center cabling infrastructure across InfiniBand and Ethernet fabrics. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>2 Hours</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	2 Hours	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	2 Hours	Free	Yes							
Data Center Management Made Easy With NVIDIA Unified Fabric Manager (UFM)	This course equips network IT teams and system professionals with the practical skills needed to operate, manage, and maintain InfiniBand Fabric nodes in the data center using the UFM as a pivot tool. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>2.5 Hours</td><td>\$50</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	2.5 Hours	\$50	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	2.5 Hours	\$50	Yes

Workshop Name	Description										
Fundamentals of RDMA Programming	This course allows C programmers to dive into the remote direct-memory access (RDMA) programming world without previous experience in networking or RDMA programming. We've also added tips and tricks, as well as do's and don'ts, so the skills you acquire will truly serve you when you need them. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>4 Hours</td><td>\$50</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	4 Hours	\$50	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
N/A	English	4 Hours	\$50	Yes							
InfiniBand Essentials	This self-paced course covers the fundamental first steps into the world of InfiniBand. If you're looking to become more familiar with InfiniBand's benefits, uses, architecture layers, and management concepts, this is the best place to start. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>1 Hour</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	1 Hour	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	1 Hour	Free	Yes							
InfiniBand Network Administration	This course covers the fundamentals of the InfiniBand technology from a usability point of view and builds on the details of the InfiniBand architecture specification. You'll learn how to install, configure, manage, troubleshoot, and monitor your InfiniBand network. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>6.5 Hours</td><td>\$200</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	6.5 Hours	\$200	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	6.5 Hours	\$200	Yes							
Introduction to Networking	In this course, you'll explore the basics of networking, some of the most widely used TCP/IP protocols, and the fundamentals of Ethernet networks. You'll also gain fundamental knowledge needed to understand key data center requirements and how they can be fulfilled. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>2 Hours</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	2 Hours	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	2 Hours	Free	Yes							
MLXlink and MLXcables	This course equips IT professionals with the essential skills to troubleshoot and analyze physical link characteristics in high-performance networks. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>2 Hours</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	2 Hours	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	2 Hours	Free	Yes							
Network Administration With the NVIDIA Onyx Switch System	This course delivers the most extensive, comprehensive, and up-to-date knowledge regarding administrating, configuring, and managing NVIDIA Ethernet switch products using the NVIDIA Onyx advanced Ethernet operating system. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>1 Hour</td><td>\$100</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	1 Hour	\$100	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	1 Hour	\$100	Yes							
NVIDIA BlueField DPU Administration	Learn the basic concepts of BlueField DPUs as a platform for accelerated data center computing. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>NVIDIA DOCA SDK, BlueField DPUs</td><td>English</td><td>4 Hours</td><td>\$50</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	NVIDIA DOCA SDK, BlueField DPUs	English	4 Hours	\$50	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
NVIDIA DOCA SDK, BlueField DPUs	English	4 Hours	\$50	Yes

Workshop Name	Description										
NVIDIA Cumulus Linux Administration	This course equips network and system professionals with the practical skills needed to deploy, operate, and manage Cumulus Linux-based data center networks. You'll learn to configure switches, VLANs, routing protocols, and advanced virtualization features such as VXLAN and EVPN. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>—</td><td>—</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	—	—	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	—	—	Yes							
NVIDIA Cumulus Linux Essentials	This course equips network and system professionals with the practical skills needed to deploy, operate, and manage Cumulus Linux-based data center networks. You'll learn to configure switches, VLANs, routing protocols, and advanced virtualization features such as VXLAN and EVPN. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>2 Hours</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	2 Hours	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	2 Hours	Free	Yes							
NVIDIA NetQ Deployment and Installation	This course is ideal for IT professionals who want to learn how to deploy, manage, and optimize NVIDIA NetQ in data center or AI factory environments. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>2 Hours</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	2 Hours	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	2 Hours	Free	Yes							
RDMA Over Converged Ethernet (RoCE) From A to Z	In this course, you'll learn what RoCE is, how it works, the different network types RoCE can run over, and how to configure RoCE for each network type. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>30 Minutes</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	30 Minutes	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	30 Minutes	Free	Yes							
SONiC Essentials by NVIDIA	In this course, you'll explore a variety of Ansible modules and write playbooks specifically adapted to modern data centers. This course includes an exclusive hands-on lab environment and exercises to practice real-world scenarios in real cloud environments. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Networking</td><td>English</td><td>2 Hours</td><td>Free</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Networking	English	2 Hours	Free	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Networking	English	2 Hours	Free	Yes							
NVIDIA DGX											
NVIDIA DGX Cloud Create Onboarding	This training is designed to equip new NVIDIA DGX Cloud Create administrators and users with the knowledge and skills needed to manage and run AI workloads on the platform. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>2 Hours</td><td>\$50</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	2 Hours	\$50	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
N/A	English	2 Hours	\$50	Yes							
Software and Tools											
Base Command Manager Administration	This course provides an overview of the NVIDIA Base Command Manager solution. For those that are going to be managing and working with HPC or AI clusters, this course will give you a head start on understanding a powerful tool for cluster and workload management. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>3.5 Hours</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	3.5 Hours	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
N/A	English	3.5 Hours	Free	N/A							

Back

Workshop Name	Description										
Data Center Management Made Easy With NVIDIA UFM	Learn about NVIDIA Unified Fabric Manager (UFM) and its capabilities, advantages, and components through a set of interactive learning units, videos, and simulators. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>N/A</td><td>English</td><td>2.5 Hours</td><td>\$50</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	N/A	English	2.5 Hours	\$50	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
N/A	English	2.5 Hours	\$50	Yes							
NVIDIA AI Enterprise Deployment on BareMetal Kubernetes	This course provides comprehensive, hands-on experience designed to equip BareMetal IT professionals with the skills needed to deploy, manage, and validate AI workloads in production environments using the NVIDIA AI Enterprise solution. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Kubernetes, NVIDIA AI Enterprise</td><td>English</td><td>4 Hours</td><td>\$100</td><td>Yes</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Kubernetes, NVIDIA AI Enterprise	English	4 Hours	\$100	Yes
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Kubernetes, NVIDIA AI Enterprise	English	4 Hours	\$100	Yes							
NVIDIA AI Enterprise for Azure Professionals	This scenario-based training focuses on an example canonical retrieval-augmented generation (RAG) use case, guiding participants through the entire process—from development to production deployment. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Cloud License Service (CLS) and Delegated License Service (DLS)</td><td>English</td><td>2 Hours</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Cloud License Service (CLS) and Delegated License Service (DLS)	English	2 Hours	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Cloud License Service (CLS) and Delegated License Service (DLS)	English	2 Hours	Free	N/A							
NVIDIA License System	NVIDIA License System (NLS) is a new licensing solution that supports the continued expansion of the NVIDIA enterprise software portfolio. This course will help you learn about NLS and how you can move from your existing licensing solution to NLS. > Learn More <table><tr><th>Tools, Libraries, Frameworks</th><th>Languages</th><th>Duration</th><th>Price</th><th>Certificate</th></tr><tr><td>Cloud License Service (CLS) and Delegated License Service (DLS)</td><td>English</td><td>3 Hours</td><td>Free</td><td>N/A</td></tr></table>	Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate	Cloud License Service (CLS) and Delegated License Service (DLS)	English	3 Hours	Free	N/A
Tools, Libraries, Frameworks	Languages	Duration	Price	Certificate							
Cloud License Service (CLS) and Delegated License Service (DLS)	English	3 Hours	Free	N/A							

Certifications

Certification Name	Description			
AI Infrastructure				
NVIDIA-Certified Associate: AI Infrastructure and Operations	This entry-level credential validates the foundational concepts of AI computing related to infrastructure and operations. > Learn More			
	Languages	Duration	Price	Certification Exam
	Multiple	1 Hour	\$125 (excludes tax, if applicable)	Yes
NVIDIA-Certified Professional: AI Infrastructure	This intermediate-level credential validates a candidate's ability to deploy, configure, and validate advanced NVIDIA AI infrastructure. > Learn More			
	Languages	Duration	Price	Certification Exam
	Multiple	2 Hours	\$400 (excludes tax, if applicable)	Yes
NVIDIA-Certified Professional: AI Operations	This intermediate-level credential validates a candidate's ability to monitor, troubleshoot, and optimize AI infrastructure by NVIDIA. Learn More			
	Languages	Duration	Price	Certification Exam
	Multiple	2 Hours	\$400 (excludes tax, if applicable)	Yes
NVIDIA-Certified Professional: AI Networking	This intermediate-level credential validates a candidate's ability to deploy and configure environments that leverage NVIDIA's advanced networking technologies. > Learn More			
	Languages	Duration	Price	Certification Exam
	Multiple	2 Hours	\$400 (excludes tax, if applicable)	Yes
Data Science				
NVIDIA-Certified Associate: Accelerated Data Science	This entry-level credential validates a candidate's understanding of GPU-accelerated data science concepts for preparing data, developing models, and managing end-to-end workflows. > Learn More			
	Languages	Duration	Price	Certification Exam
	Multiple	1 Hour	\$125 (excludes tax, if applicable)	Yes
NVIDIA-Certified Professional: Accelerated Data Science	This intermediate-level credential validates a candidate's proficiency in leveraging GPU-accelerated tools and libraries for data science workflows. > Learn More			
	Languages	Duration	Price	Certification Exam
	Multiple	2 Hours	\$200 (excludes tax, if applicable)	Yes

Certification Name	Description								
Generative AI									
NVIDIA-Certified Associate: Generative AI Large Language Models	This entry-level credential validates the foundational concepts for developing, integrating, and maintaining AI-driven applications using generative AI and large language models (LLMs) with NVIDIA solutions. > Learn More								
	<table><tr><th>Languages</th><th>Duration</th><th>Price</th><th>Certification Exam</th></tr><tr><td>Multiple</td><td>1 Hour</td><td>\$125 (excludes tax, if applicable)</td><td>Yes</td></tr></table>	Languages	Duration	Price	Certification Exam	Multiple	1 Hour	\$125 (excludes tax, if applicable)	Yes
	Languages	Duration	Price	Certification Exam					
Multiple	1 Hour	\$125 (excludes tax, if applicable)	Yes						
NVIDIA-Certified Associate: Generative AI Multimodal	This entry-level credential validates the foundational skills needed to design, implement, and manage AI systems that synthesize and interpret data across text, image, and audio modalities. > Learn More								
	<table><tr><th>Languages</th><th>Duration</th><th>Price</th><th>Certification Exam</th></tr><tr><td>Multiple</td><td>1 Hour</td><td>\$125 (excludes tax, if applicable)</td><td>Yes</td></tr></table>	Languages	Duration	Price	Certification Exam	Multiple	1 Hour	\$125 (excludes tax, if applicable)	Yes
	Languages	Duration	Price	Certification Exam					
Multiple	1 Hour	\$125 (excludes tax, if applicable)	Yes						
NVIDIA-Certified Professional: Generative AI LLMs	This intermediate-level credential validates a candidate's ability to design, train, and fine-tune cutting-edge LLMs, applying advanced distributed training techniques and optimization strategies to deliver high-performance AI solutions. > Learn More								
	<table><tr><th>Languages</th><th>Duration</th><th>Price</th><th>Certification Exam</th></tr><tr><td>Multiple</td><td>2 Hours</td><td>\$200 (excludes tax, if applicable)</td><td>Available</td></tr></table>	Languages	Duration	Price	Certification Exam	Multiple	2 Hours	\$200 (excludes tax, if applicable)	Available
	Languages	Duration	Price	Certification Exam					
Multiple	2 Hours	\$200 (excludes tax, if applicable)	Available						
NVIDIA-Certified Associate: Generative AI Multimodal	This entry-level credential validates the foundational skills needed to design, implement, and manage AI systems that synthesize and interpret data across text, image, and audio modalities. > Learn More								
	<table><tr><th>Languages</th><th>Duration</th><th>Price</th><th>Certification Exam</th></tr><tr><td>Multiple</td><td>2 Hours</td><td>\$200 (excludes tax, if applicable)</td><td>Available</td></tr></table>	Languages	Duration	Price	Certification Exam	Multiple	2 Hours	\$200 (excludes tax, if applicable)	Available
	Languages	Duration	Price	Certification Exam					
Multiple	2 Hours	\$200 (excludes tax, if applicable)	Available						
Simulation and Physical AI									
NVIDIA-Certified Professional: OpenUSD Development	This intermediate-level credential validates a candidate's ability to build, maintain, and optimize 3D content creation pipelines using OpenUSD. > Learn More								
	<table><tr><th>Languages</th><th>Duration</th><th>Price</th><th>Certification Exam</th></tr><tr><td>Multiple</td><td>2 Hours</td><td>\$200 (excludes tax, if applicable)</td><td>Available</td></tr></table>	Languages	Duration	Price	Certification Exam	Multiple	2 Hours	\$200 (excludes tax, if applicable)	Available
	Languages	Duration	Price	Certification Exam					
Multiple	2 Hours	\$200 (excludes tax, if applicable)	Available
